

K150 fully deployed, automatic roll off stop down, platform suitable for wide electric wheelchairs

These points count:

- safe working load: 300 kg
- slim design guarantees maximum ground clearance
- automatic roll off stop works fine on uneven ground
- strong lift travelling frame and roller guides ensure smooth stow and deploy
- platform suitable for wide electric wheelchairs
- enclosed corrosion resistant cassette protects the lift from extreme weather conditions
- manual back up facility
- no chassis modification required
- light weight construction
- CE marked
- powerful hydraulic pump

**Products from AMF-BRUNS
traditional innovative**

Technical:

Safe loading works:	300 kg
Platform dimensions:	appr. 800 x 1380 mm
Unladen weight:	appr. 160 kg
Lowering:	appr. 8 sec.
Lifting:	appr. 6 sec.
Deploy:	appr. 12 sec.
Stow:	appr. 12 sec.
Drive:	electro hydraulic 12 V / 24 V
Operation:	over pushbuttons for all operations

Slim design guarantees maximum ground clearance

Manufactured to EU - guideline 95/54/EG/EC & EN 1756-2

We think safety from the beginning:

- automatic bridge plate to prevent foot entrapment
- fully automatic roll off stop
- manual back up system
- anti - slip surface
- dual handrails for user comfort & safety
